

Therma-Kleen's propane-fired steam cleaner Ultra 1300 is a clean burning, compact system designed to clean, de-grease and sanitizes with high pressure, low water volume, combined with adjustable steam temperatures, while maintaining an environmentally and safe work place by eliminating the need for most chemicals. The Ultra 1300 is designed to clean quickly when time is a factor. With 1300 p.s.i. this model cleans larger areas or many pieces of equipment quickly while still using a common 15 amp. circuit. All of our models come with blue powder coat paint or all stainless steel body.
