95% Dry Vapor Steam Cleaner

As an American made Vapor Steam Cleaner, the THERMA-STEEM model is easy to use. Just pour water into the stainless steel boiler, plug into an electrical outlet and within minutes the cleaner will be ready to deliver powerful cleaning pressures of up to 100 p.s.i./6.8 bar pressure at 330 F / 170 C temperature.

This model is ideal for sanitizing and de-greasing areas where water should not or cannot be used; i.e. interior items such as kitchens for ovens, floors, tile, grout and refrigerators; also for carpets and seating areas; for auto detail shops, food processors, industry, schools and universities, kills bed bugs, restroom sanitation, food safety, removes gum, disinfects and deodorizes hotel rooms, mattresses, etc.
